SUMMARY

Recent graduate with Bachelor of Science in Data Analytics, leveraging practical project experience and strong analytical foundation to deliver meaningful insights. Skilled at identifying patterns and trends to support strategic decision-making. Highly motivated to bring results-oriented approach to data analytics field and contribute to organizational success.

Core Competencies:

Data Analysis & Interpretation | Relational Database Management | Statistical Modeling & Testing | Data Cleaning & Wrangling | Dashboard Development & Data Visualization | Performance & Operations Metrics Tracking | Process Optimization | Financial & Operational Trend Analysis | Customer Behavior Analysis | Collaborative Data-Driven Decision-Making

EDUCATION & CERTIFICATIONS

Bachelor of Science, Data Analytics | Western Governors University

Certifications: CompTIA Data+, CompTIA Project+, AWS Cloud Practitioner, WGU Data Analyst Nanodegree

TECHNICAL SKILLS

Microsoft Office Suite, SQL, Python, Tableau, Power BI

RELEVANT PROJECTS

A/B Test Analysis: Evaluated user behavior to optimize decision-making and improve performance metrics.

Energy Consumption Analysis: Analyzed energy consumption patterns across various building types to identify key factors such as size, occupancy, and temperature, uncovering trends that impact energy usage.

Quarterly Sales: Designed and implemented an interactive Tableau dashboard to monitor quarterly sales performance, analyze customer demographics, and track key product trends.

E-Commerce Sales: Developed an interactive Power BI dashboard to provide insights into e-commerce sales, evaluate product performance, and identify customer behavior patterns.

Consumer Trend Analysis: Leveraged Excel to analyze consumer shopping behavior, providing insights to refine product targeting and optimize inventory management.

PROFESSIONAL EXPERIENCE

Co-Founder | La Boba Loca – Arvin, CA | 11/2022 – 10/2024

- Directed day-to-day operations, including vendor coordination, inventory control, and staffing to ensure smooth business performance.
- Evaluated sales trends and customer preferences to make data-informed decisions on marketing strategies.
- Supervised budgeting, cost control, and financial tracking to maintain operational efficiency and profitability.
- Leveraged customer data and feedback to segment the market and create targeted marketing campaigns.
- Devised data-driven strategies for inventory management, optimizing stock levels and reducing waste based on sales forecasts and customer demand patterns.

Office Administrative Assistant | Perez Construction – Arvin, CA | 11/2017 – 03/2023

- Developed data tracking systems to analyze performance and sales metrics, improving reporting accuracy.
- Streamlined organizational workflows and filing systems to enhance efficiency and maintain data integrity.
- Collaborated with team members to streamline administrative processes, reducing response times for inquiries.
- Employed Excel to build and track detailed inventory reports, providing insights into supply chain efficiency.

Retail Sales Representative | Burlington Coat Factory – Columbus, GA | 12/2014 – 12/2016

- Delivered actionable insights on customer preferences to improve product recommendations and enhance sales.
- Maintained inventory records and visual displays, ensuring alignment with organizational standards and expectations.
- Responded to customer inquiries with precision, escalating complex issues to management to ensure efficient resolution and satisfaction.
- Assisted in compiling inventory counts and comparing them with sales data to identify discrepancies and maintain stock accuracy.
